CAREER OBJECTIVE

3rd Year BS Information Technology student at Ateneo de Davao University with a focus on front-end development, seeking a Front-End Developer role to apply and grow my skills. Builds fully responsive, production-quality interfaces from Figma prototypes to deployed, interactive web apps.

EDUCATION

BS in Information Technology

2024 — Present

Ateneo de Davao University

Currently in 3rd Year

Senior High School — ABM Strand

Graduated

Holy Cross of Mintal Incorporated

PROJECTS

ADDU Nation — Alumni Portal

WEB DEV · UI/UX

Alumni community platform taken from a Figma prototype to a fully working web app — login, donations, academic documents, career browsing, and an admin side. Built as an offline-capable PWA.

AngularJS 1.x · Service Worker · Web Manifest · Responsive CSS

Schedule Builder

WEB DEV · TOOL

Original tool that parses a pasted or screenshotted class schedule into an accurate, time-blocked weekly calendar, with a review/fix step and four selectable visual styles.

HTML · CSS · JavaScript · OCR-assisted parsing

PomoTask — Time Management App

PRODUCTIVITY APP

Browser port of a Java desktop app, following the real 25/5/15-minute Pomodoro structure, with break suggestions that adapt to task type.

JavaScript · Priority Queue · Recursion · Stack (data structures)

Pixora — Pinterest-Inspired App

WEB DEVELOPMENT

Visually-driven image board with a masonry grid layout, pinning functionality, and five fully interactive pages.

HTML · CSS · JavaScript · Responsive Layout

Nmap Visualizer & Log Analyzer

WEB DEV · DATA VIZ

Frontend dashboard that turns raw Nmap scan output into an interactive executive dashboard — a force-directed network map, risk-scored host table, and live filtering.

React · Recharts · vis.js
